**Phone: 405-292-6686**

## **Digital Dry Lab Printing**

Our digital prints are printed using state of the art Fuji and Epson Dry Lab technology and can be printed on a variety of paper finishes. Most reprint orders are ready same day depending on activity. Prints can be made from CD, DVD, Media Card, USB drive, Cell Phone, or can be shared with us digitally via services like email or drop box.

## **Video Transferring to DVD**

We monitor all video transferring to ensure that your videos are free of unwanted footage (for example: old episodes of Star Trek). All video's we transfer to DVD are transferred to their own disk unless otherwise requested to ensure you get the best quality footage out of your VHS tapes.

## **Film Processing**

We process all of our film in house to ensure that your film is developed properly and all negatives are returned to their rightful owner, not the garbage can. We also scan all of the film ourselves so we can make sure you get the best digital files out of your precious negatives.

**We do all kinds of odd jobs here at Main Street Photo-Video so if you have any questions about anything you don't see listed here then come on down, give us a call, or email us and we will answer any and all questions you have to the best of our ability.**

### Digital Reprints (3.5×5, 4×4, & 4×6)

## Art Reproduction

The first step in quality art reproduction is a good digital copy. We photograph your work in our studio and then color match the file to make as close a print to your original as possible. Once your art piece has been copied it can be print on photostock, canvas, fine art water color, enhanced matte or recycled matte (see large format printing).

**Copy Art on CD: 1 Piece - 25.00**  
**Additional Pieces - 15.00each**
